

Event summary for marketing/publicity/communications folks.

Cyber*Sci is Canada's Cyber Security Challenge for university and college students. This year's event takes place on Saturday, November 5, 2022.

This year we have 44 teams totalling over 200 students in Saint John, Montréal, Ottawa, Toronto, Calgary and Vancouver. It is a one-day competition where the winning team from each region will advance to the **Cyber*Sci** National Finals in Ottawa next June. From there, the top students will go on to represent Canada at International tournaments, such as the European finals in Oslo, Norway October 24-27, 2023.

The mission of **Cyber*Sci** is to improve the cyber security skill set across Canada. Details of your own school's participation can be had from your school representative (who would have sent you this note.)

Full details of the **Cyber*Sci program are available here:**
